

Note that the wheels show the focal length as given within the camera. The approximate 35 mm equivalent, and what you see printed on the lens barrel of the R1, is as follows:

17 mm = 28 mm equivalent as shown on the R1 lens barrel

21 mm = 35 mm equivalent as shown on the R1 lens barrel

30 mm = 50 mm equivalent as shown on the R1 lens barrel

43 mm = 70 mm equivalent as shown on the R1 lens barrel

60 mm = 100 mm equivalent as shown on the R1 lens barrel

72 mm = 120 mm equivalent as shown on the R1 lens barrel
